

Client Story

neo

Neo Financial

One of the largest, fastest growing, and most popular neobanks in Canada

<https://www.neofinancial.com/>

"Neo is built on the belief that Canadians who put in the work deserve to get what they've earned. Whether that's a first credit card approval, a secured card that builds their credit score, or a high-interest savings account that actually rewards their discipline. Financial victory is built one decision at a time. TaranDM gives us the decisioning infrastructure to deliver that at scale, catching the signals legacy banks miss without the constraints that slow most companies down. That's the kind of partnership that moves the mission forward."

Andrew Chau
Co-founder, Neo Financial
